THÉ FOR TWO

There's no occasion too small not to be celebrated in style. Take a leaf from **Hermès'** book and elevate high tea to the next level with its *Rallye 24* tea set collection, decorated with a fetching Chaîne d'Ancre motif in a demure colour palette, a perfect fit for a minimalist household.

THE CENTRE OF ATTENTION

A table is all but naked without a centrepiece to bring life and colour. Let the immaculate silver *Vertigo Bowl*, created by **Andrée Putman** together with **Christofle**, take pride of place on your dining table when you need to dress it up – stack it high with fragrant seasonal fruits or do the unexpected and fill it with colourful seashells from your beach retreats. The possibilities are endless.
