

## BLUE-EYED BEAUTY

To achieve the **NARS** makeup look seen during the Phillip Lim spring/summer 2016 fashion show in New York, makeup artist Francelle Daly first preps the skin then applies the Nars Velvet Matte Skin Tint to the centre of the face and blends to a natural finish. She then blends the Stick Concealer, as needed, into skin. The top lash line is lined with Solomon Islands Eye Paint, starting from the centre of the eyelid while the lower lash line is lined from the inner corner and stops at the halfway point.

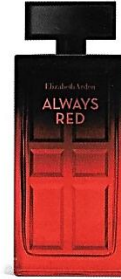

## WHITE OUT

Age, sun rays, environmental aggressors, are all factors that cause skin to be dull and lifeless, making your complexion lose that youthful light. **CHANEL'S** new intensive skincare line, Le Blanc, promises to illuminate! The Le Blanc L'Extrait Intensive Youth Whitening Treatment is the cure to dull skin with proven results after just 28 days. The Le Blanc Intensive Whitening Spot Treatment on the other hand, specifically targets dark spots.

## BEAUTY NEWS
