

High above Kuala Lumpur's madding crowd, guests of *The Peak* and Goldis Berhad's Chief Investment Officer partook in a delightful evening of camaraderie and cuisine amidst the comfort of GTower's exclusive Bridge Bar.

On a recent Thursday evening, on the 28th floor of Malaysia's first Green building – the BCA Gold Greenmark-certified GTower – guests of *The Peak* and GTower's Executive Director Colin Ng turned up for a CEO Dinner Series which had all the makings of a great evening. First, there was the venue: a glassy sky connection which afforded one the rather interesting perspective of floating on air. Then, of course, the delicious food courses prepared by Senior Sous Chef Eugene Lee, who is jointly responsible for the menu at the adjacent Tanzini restaurant with Executive Chef Johnny Fua. Most importantly – and as with almost all things – there was the august company of guests who represented the multi-faceted successes of Corporate Malaysia, bestowing an inspirational gilt to an enjoyable night.
