

A GENTLEMAN'S PREROGATIVE

The Freshman, from the world's oldest certified men's grooming salon Truefitt & Hill, will make the perfect gift for the gentleman who desires a lasting cologne that is light and breezy yet interesting enough to arouse senses. Through the years, the Freshman underwent numerous reformulations and re-orchestrations in keeping up with the ever changing vagaries of fashion. The fragrance features top notes of Lemon, Bergamot, Rosemary, Mint and Orange Blossom surrounding the heart Clary Sage, Lily of the Valley, Jasmine and Ylang-ylang, comfortably resting on base notes of woods, Musk and Oakmoss.

CLASSIC NOTES

Original Vetiver is Creed's modern take on the classic Vetiver fragrance. Vetiver fragrances traditionally derive their scent from the root of the plant. Original Vetiver infuses vetiver leaves into the blend for a fresh and original effect. This unisex fragrance pairs vetiver with Mediterranean citrus and spice, for a warm, sensual and sophisticated aroma. The top notes consist of ginger, mandarin and bergamot. Middle notes incorporate vetiver from Haiti, Mysore sandalwood and Florentine Iris. The base notes include musk and ambergris.

FACE FRESH

Ren introduces Rosa Centifolia Foaming Cleanse, a gentle, detergent free foaming cleanser infused with Rose Extracts that removes grime in one stroke delivering purified, toned skin that feels fresh and revived, without stripping skin of essential oils. The patented pump action enables the cleanser to lather into a creamy foam without the use of harsh detergents which strip skin of essential oils. Rose tannins tighten pores to tone the skin, anthocyanins and Vitamin P protect the skin's capillary venous system to decongest and soothe. Rose mucilages help soften the skin.
